### **Run# 641 – Run Report**

**Hare:** Florian Beuhausen  
**Run Site:** Blackmore Drive

It was raining moderately when we arrived at the rain-soaked run site. The Hare and his helper announced it was going to be a "Live Hare" run where the Hare goes ahead of the pack by ten minutes to lay the trail. In this case it was to re-lay the trail because of the rain! After Florian briefed the Horrors on the long and short run, we were flagged-off about 4:30pm.

We headed down Blackmore Drive only to be turned around by a T-Check. The check was broken inside the RTM Malaysian-owned territory. Just as soon the pack had crossed the Railway about 4:40pm, the train came barreling through to shouts from parents and horrors of "TRAIN! TRAIN!" We then went southward down the tracks and turned right adjacent the large drainage canal. We followed the canal along the southern edge about 150 meters before we turned left into the forest.

We meandered inside the forest and climbed to the top of a ridge that eventually gave us a monkey's-eye-view of the Old Jurong Railway down below. Finally, the trail led us down into the ravine to the old railway line. We followed the abandoned railway until we made it out near the entrance to the drainage canal. We then crossed the KTM Railway (again!) and had to choose "left" for the short run or "right" for the long run.

We chose "left" for the short run and followed the now cement drain eastward back towards home. We soon emerged at the south end of the large field. We slowly made our way back across the field to the run site. The entire run took us about one hour. Some of the long runners didn't make it back until 6pm. Last runners were in about 6:15pm. Fortunately it had stopped raining by the time we emerged.

After Mr. Hoe's delicious Lasagna, we served ice-cream. Then we held the circle and had a tug-of-war. After sweets were distributed, we packed-up and headed home to dry out. Many thanks Hare Florian for a "Wet & Wild" experience.
